This aircraft and/or engine is subject to the International Registry of Mobile Assets (IRMA). IRMA permits the registration of financial, ownership and other interests in aircraft, helicopters and aircraft engines (aircraft objects) by electronically registering international interests with the International Registry (IR) on a first to file basis. It provides for the protection of international interests that are recognized by the ratifying states, including the United States, and serves as a notification mechanism to the user community of the various and competing interests in aircraft objects. Since this aircraft object is subject to the recording criteria of IRMA, you may wish to request an IR Priority Search for this aircraft object. Further, registration with the IR is recommended by Aero-Space Reports to protect any interest acquired in the aircraft object. If the interest sought/acquired in the aircraft object is subject to IRMA and not registered with the IR, any interest obtained in the aircraft object may be subordinate, junior or otherwise inferior to an interest previously or subsequently registered with IR.
